

ANNA BRADLEY MAKES A SCENE

Spicy Incident on Railroad
Train Related by Willis
Brown.

ASKED \$50 FROM SENATOR

THREATENED TO ACCOMPANY
HIM TO WASHINGTON.

When former Senator Arthur Brown left the city for Washington on the trip preceding the last fatal visit to the national capital, he was accompanied as far as Ogden by Mrs. Anna M. Bradley. That he had Mrs. Bradley's company was not by any arrangement which he had made, according to a witness of the incident, William Brown, a fellow passenger who rode in the sleeper with Senator Brown from Salt Lake to Ogden, related the incident last night.

Senator Brown boarded the train at Salt Lake a few minutes before its departure and settled himself comfortably in the section assigned to him. He apparently dozed, with his head sunk forward and with his eyes closed. A moment before the train started, and after the crew had given the "All aboard" signal, a woman entered the car and went quietly to the seat occupied by Senator Brown. He was not aware of Mrs. Bradley's presence in the car until she tapped him on the shoulder.

"What are you doing here?" he cried in his customary rasping tone when excited.

"I have come to get some money with which to care for your two little children until you get back," was the response.

"Haven't you got any money?"

"Why are you going to Washington and leaving me with those children and with only \$10 to use for them until you get back?" the woman asked him.

Kissed Him in Car.

Brown then ordered the woman to leave the car, but she refused to go, and took a seat beside him. Presently, according to Judge Brown, she leaned over and kissed him on the cheek of the senator, and addressed him in endearing terms.

In return Senator Brown cursed her and, griffed his teeth at her.

"How much money have you got with you?" he asked her.

"I have only \$2 with me."

"How far are you going?"

"I am going to Washington with you, and I get \$20 to care for your children."

"Blackmail! Blackmail!" screamed Brown as she shook his fist in Mrs. Bradley's face.

Then, according to the witness, Mrs. Bradley addressed other endearing terms toward her companion, and received other curses and threats from the senator.

Bradley kissed the senator again, this time full upon the lips. Under her persuasion he became more quiet.

Flies Into a Rage.

When the train pulled into the depot at Ogden, Brown again requested Mrs. Bradley to leave the train and not molest him. Mrs. Bradley refused, and Brown flew into a towering rage, walking up and down the aisle of the car, shaking his fist at Mrs. Bradley and calling her a blackmailer.

Mrs. Bradley quietly but firmly drew her wraps closer about her form and sat back in her seat as though to stay for the remainder of the trip to Washington.

Brown again asked her what she wanted and she replied in a low but firm voice that she needed money to care for her children. She said that she had \$10 left from her allowance, but that this amount was not sufficient to provide for the necessities of the children until he should return from Washington.

The train pulled into the yards and then backed up to the depot again. Brown arose from his seat and went to the car platform, closely followed by Mrs. Bradley.

As the train backed into the depot Mrs. Bradley embraced Brown and called him by terms of endearment. Brown griffed his teeth, and Mrs. Bradley dropped from the train. Brown resumed his seat in the car and for more than an hour talked to himself, pounding the arm of the car, and muttering to himself.

The sole observer of the incident was unable to see Mrs. Bradley received the money which she demanded of Brown.

LACK OF MOTIVE POWER.

Over 3,000 Empty Freight Cars in Kansas City Yards.

Kansas City, Dec. 16.—The Journal today says: A systematic inspection of the terminal railroad yards here shows that there are 3,000 empty freight cars standing idle in the Kansas City yards because the railroads have not sufficient motive power to move them. There are not less than 1,000 loaded cars standing in the yards here and the dates of loading some of them showed that they had been ready to move for weeks. There is no shortage of cars here, but a shortage of engines.

At Sedalia, Mo., there are 201 empty freight cars by actual count, and at Springfield there are 373. At Topeka, Kan., there are more than 300 empty cars in the yards; at Wichita, about 200 and at Hutchinson about 50 cars.

This makes a total vote of 115, as I declared several days ago that not fifteen votes will be cast against me."

Eighty-six votes are necessary to elect.

Breaking of New York Watermain Causes Some Apprehension.

New York, Dec. 16.—A strip of pavement twenty feet in width and extending seventy-five feet in Wall street, caved in tonight, sinking about three feet below the surface. The depression was due to the breaking of a water main, by which steam, gas and water pipes were undermined.

GREAT MAN FOR THE PLACE

James Bryce, an Ideal Selection for British Ambassador at Washington.

London, Dec. 17.—The first of the impending changes in the cabinet to be announced is the resignation of J. E. Ellis, parliamentary secretary to the Indian office. He is leaving on account of ill-health and is going abroad to recuperate. It is understood that Walter Runciman, parliamentary secretary to the local government board, will resign, and it is rumored that Herbert Gladstone will leave the home office. Sir Henry Campbell-Bannerman, however, according to the latest political gossip, has decided to remain in the house of commons in view of a Liberal attack that is about to be made on the upper house. Everything, however, appears to hinge on James Bryce's acceptance of the post of ambassador to the United States.

The British press is now beginning to regard Mr. Bryce's acceptance as a foregone conclusion. The Tribune, referring today to the subject, points out that the post of ambassador to Washington might easily become the most exalted in the diplomatic service, despite contentions to the contrary. The paper adds that the possibility of Mr. Bryce's acceptance meets with general approval, both in England and among the United States.

"President Roosevelt, it is said," the Tribune continues, "has allowed it to be known that he would cordially welcome Mr. Bryce's appointment. On this side of the Atlantic it is recognized that a post so attractive, influential and distinguished would be a fitting climax to Mr. Bryce's long public career."

The party will go by way of the Isthmus of Panama to Mollendo, Peru, and thence to Aruquipa, where permanent headquarters will be made and from which place reports will be sent from time to time to America.

CHARGES AGAINST CONSUL

Charles Henrotin Said to Be in the Pay of Leopold to Prevent Congo Investigation.

Chicago, Dec. 16.—Accusations were made by Rev. Herbert S. Johnson of Boston, in an address delivered at the Park avenue Methodist church here today, against Charles Henrotin, Belgian consul in Chicago, whom he charged with being a member of a Belgian lobby working to prevent the United States government from noticing the alleged atrocities in the Congo Free State, and with being in the pay of King Leopold of Belgium.

Dr. Johnson declared that representations soon will be made to the state department at Washington which will be followed by a demand that the Belgian government that Mr. Henrotin be removed from the Chicago consulate.

Mr. Henrotin made specific denial of being a member of the Belgian lobby, adding that he doubted that such lobby exists. "If Dr. Johnson says I am a member of the so-called Belgian lobby he lies," said Consul Henrotin. "I most emphatically deny it. There have been accusations in Congo, but they occurred years ago. King Leopold is doing his utmost to suppress atrocities and punish violations of the law."

Dr. Johnson, who is pastor of Warren Avenue Baptist church, Boston, was introduced by Professor Jerome H. Raymond of the University of Chicago. "The atrocities in the Congo are a thousand times worse than in the Congo," said Dr. Johnson. "King Leopold has taken the lands of the native population and has enslaved from 2,500,000 to 3,500,000 Congolese people in the Congo. The wages paid to the Congo people for work in the rubber plantations is a charity. If the natives are not quick enough in bringing in an amount of rubber to suit the king's agents they are whipped to death."
